Summary

I am a junior front end developer (React JS). Many websites which I created using my skills in this field. I have a passion for learning new technologies and tools, and I am always eager to fill the missing gaps in my knowledge. My goal is to become a powerful developer who knows most of the tips and tricks with a lot of huge achievements.

Projects

- **Fokir design (using native html and css).**
  Github link: https://mohamed-magdy2214.github.io/fokir/
